

St. George Greek School

The Saint George Greek School offers a well-rounded academic Greek education to students from preschool through high school. Our program offers students opportunities to speak, read, write, sing, and recite poetry in Greek. Additionally, our program includes lessons in Greek history, geography, mythology, customs, and traditions.

Our goal is to offer programs that nurture a love and understanding of the Greek language, heritage, and culture.

In the 2010-2011 school year, fifty five students completed the St. George Greek School program. We look forward to the return of our past students and hope to welcome new students.

The Greek-School teachers are native speakers and experienced educators who are patient, loving, and passionate about imparting Greek heritage to new generations.

The Greek School Staff:
